

ECOVOLT

AI-Native Building Orchestration System (AIBOS)

Building emissions are growing and a big deal.

Global building floor area will **double** by 2050.

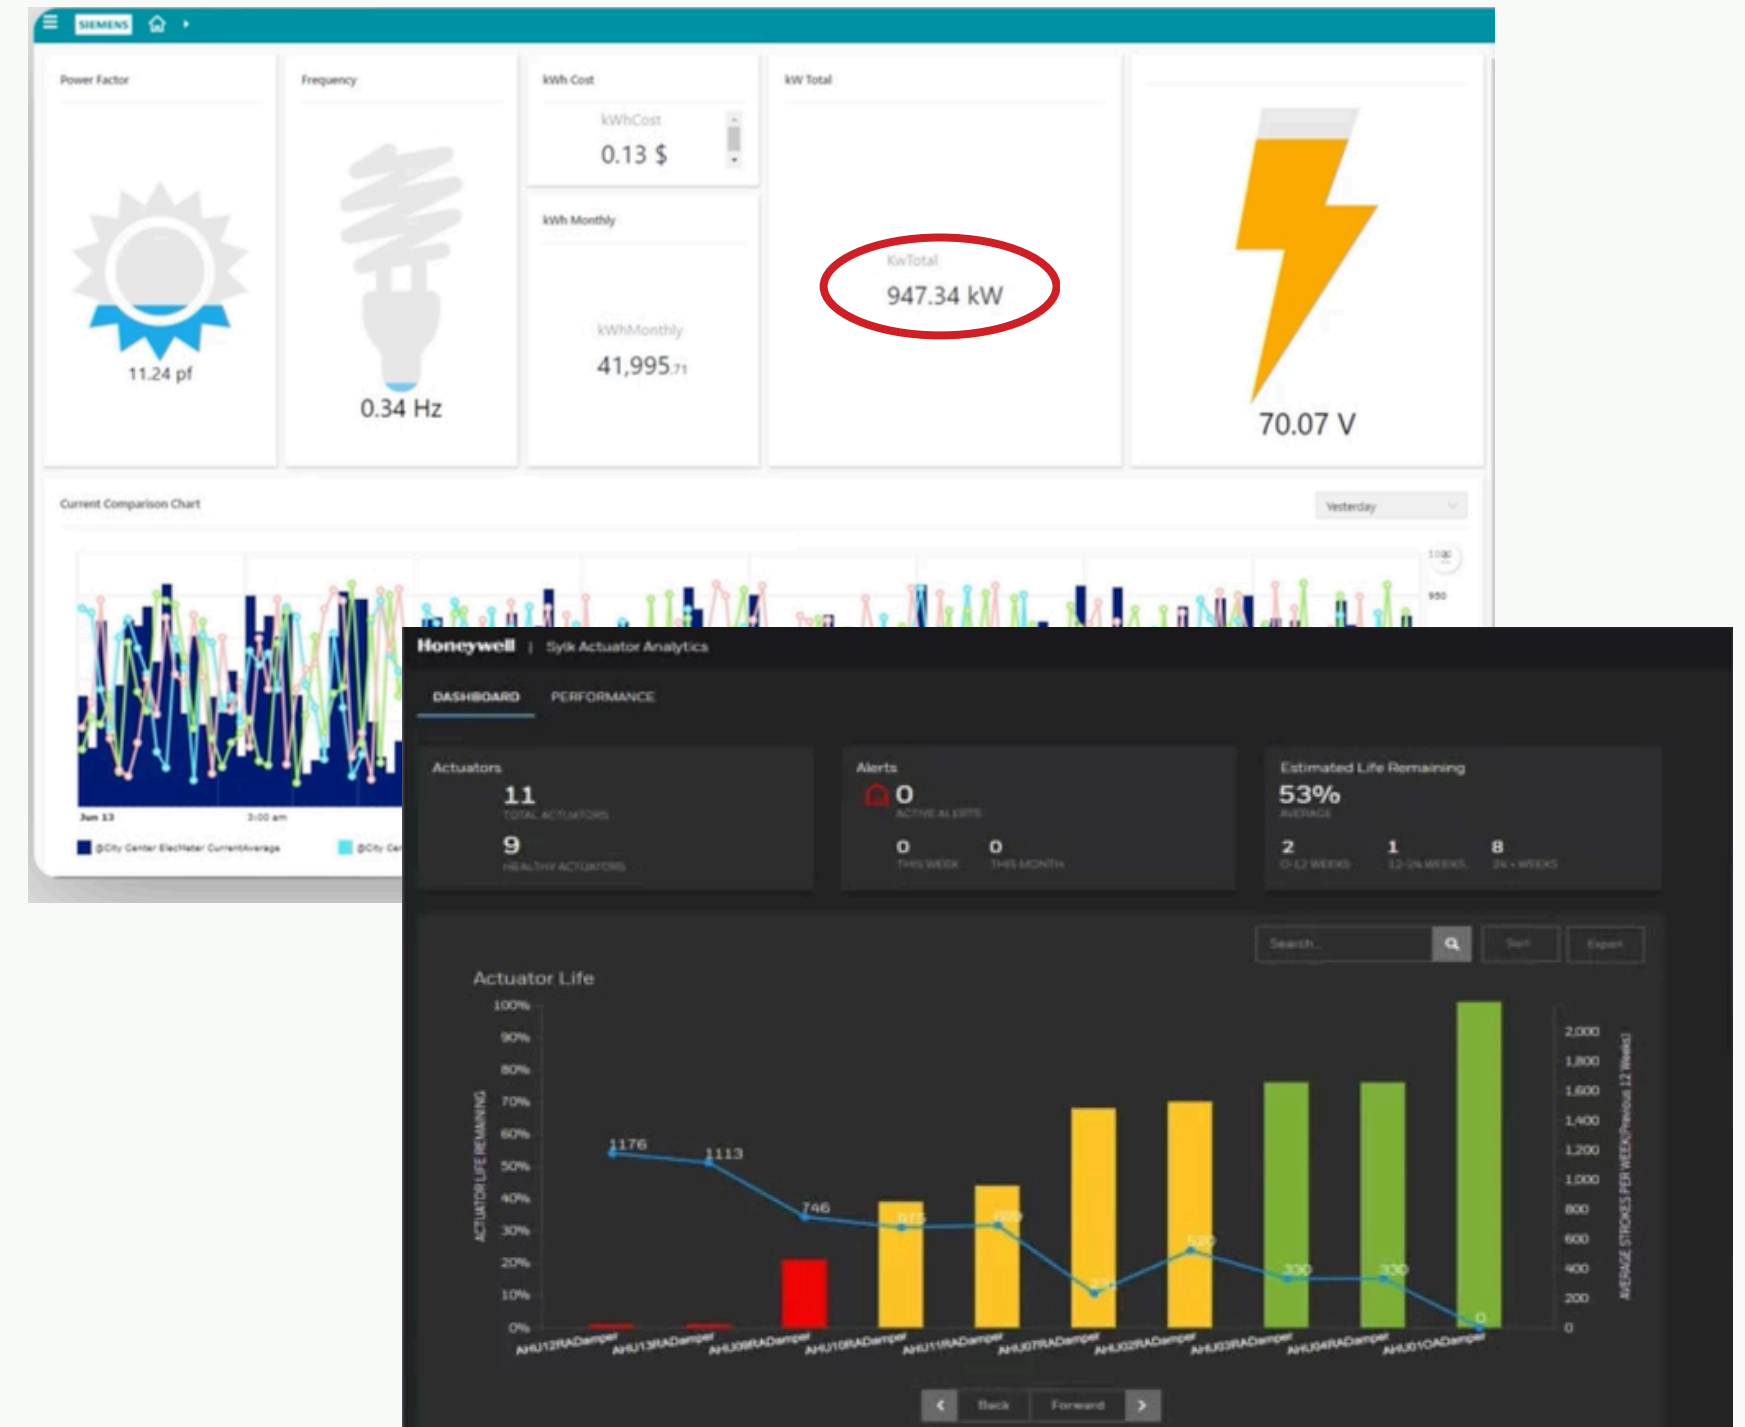

- **>10,000 High Rise Buildings**
- 4th most high-rise buildings per capital in the world

- **80% of buildings must be greened by 2030**
- 2/3 reduction of carbon emissions for schools
- SG as a regional hub for sustainability innovation

Current solutions do not help nudge resource conscious behaviour.

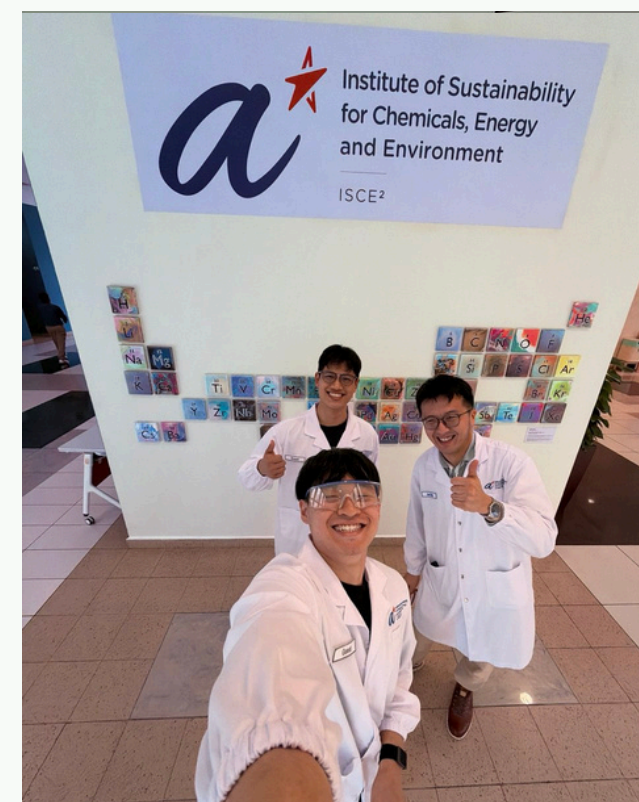

Monthly Utility Bill

You have no idea what you are paying for.

Legacy BMS Software

You are guesstimating your carbon footprint.

We started building Ecovolt in July 2025. We validated our solution with over 30 customers.

ECOVOLT Supporting brownfield & greenfield buildings in APAC & beyond

Press & Achievements

Schools Implemented Ecovolt to trim electricity use by up to 20%

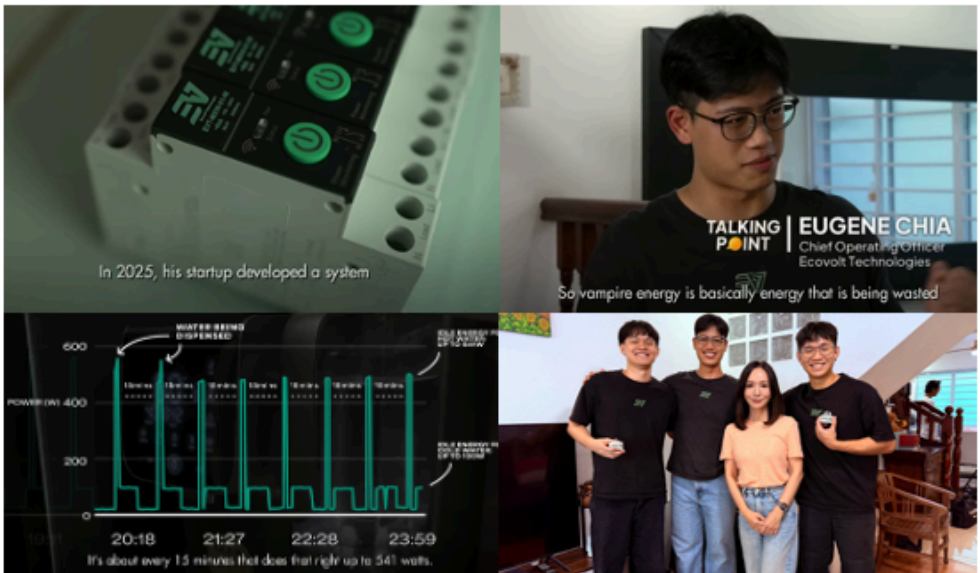

National Youth Entrepreneurship Award Gold (Open Category)

WCS 2026 Innovators Alley

Singapore's most promising changemakers, inspired by the pioneering work of its namesake, Mr Philip Yeo

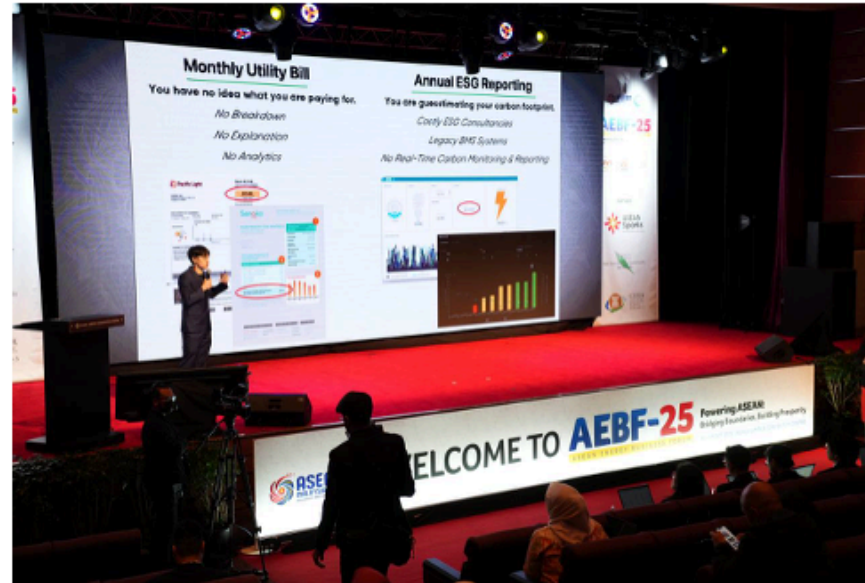

How Much Is Your Electricity Bill About To Go Up? Special Episode Feature

Asian Green Energy Innovation Challenge 1st Runner Up

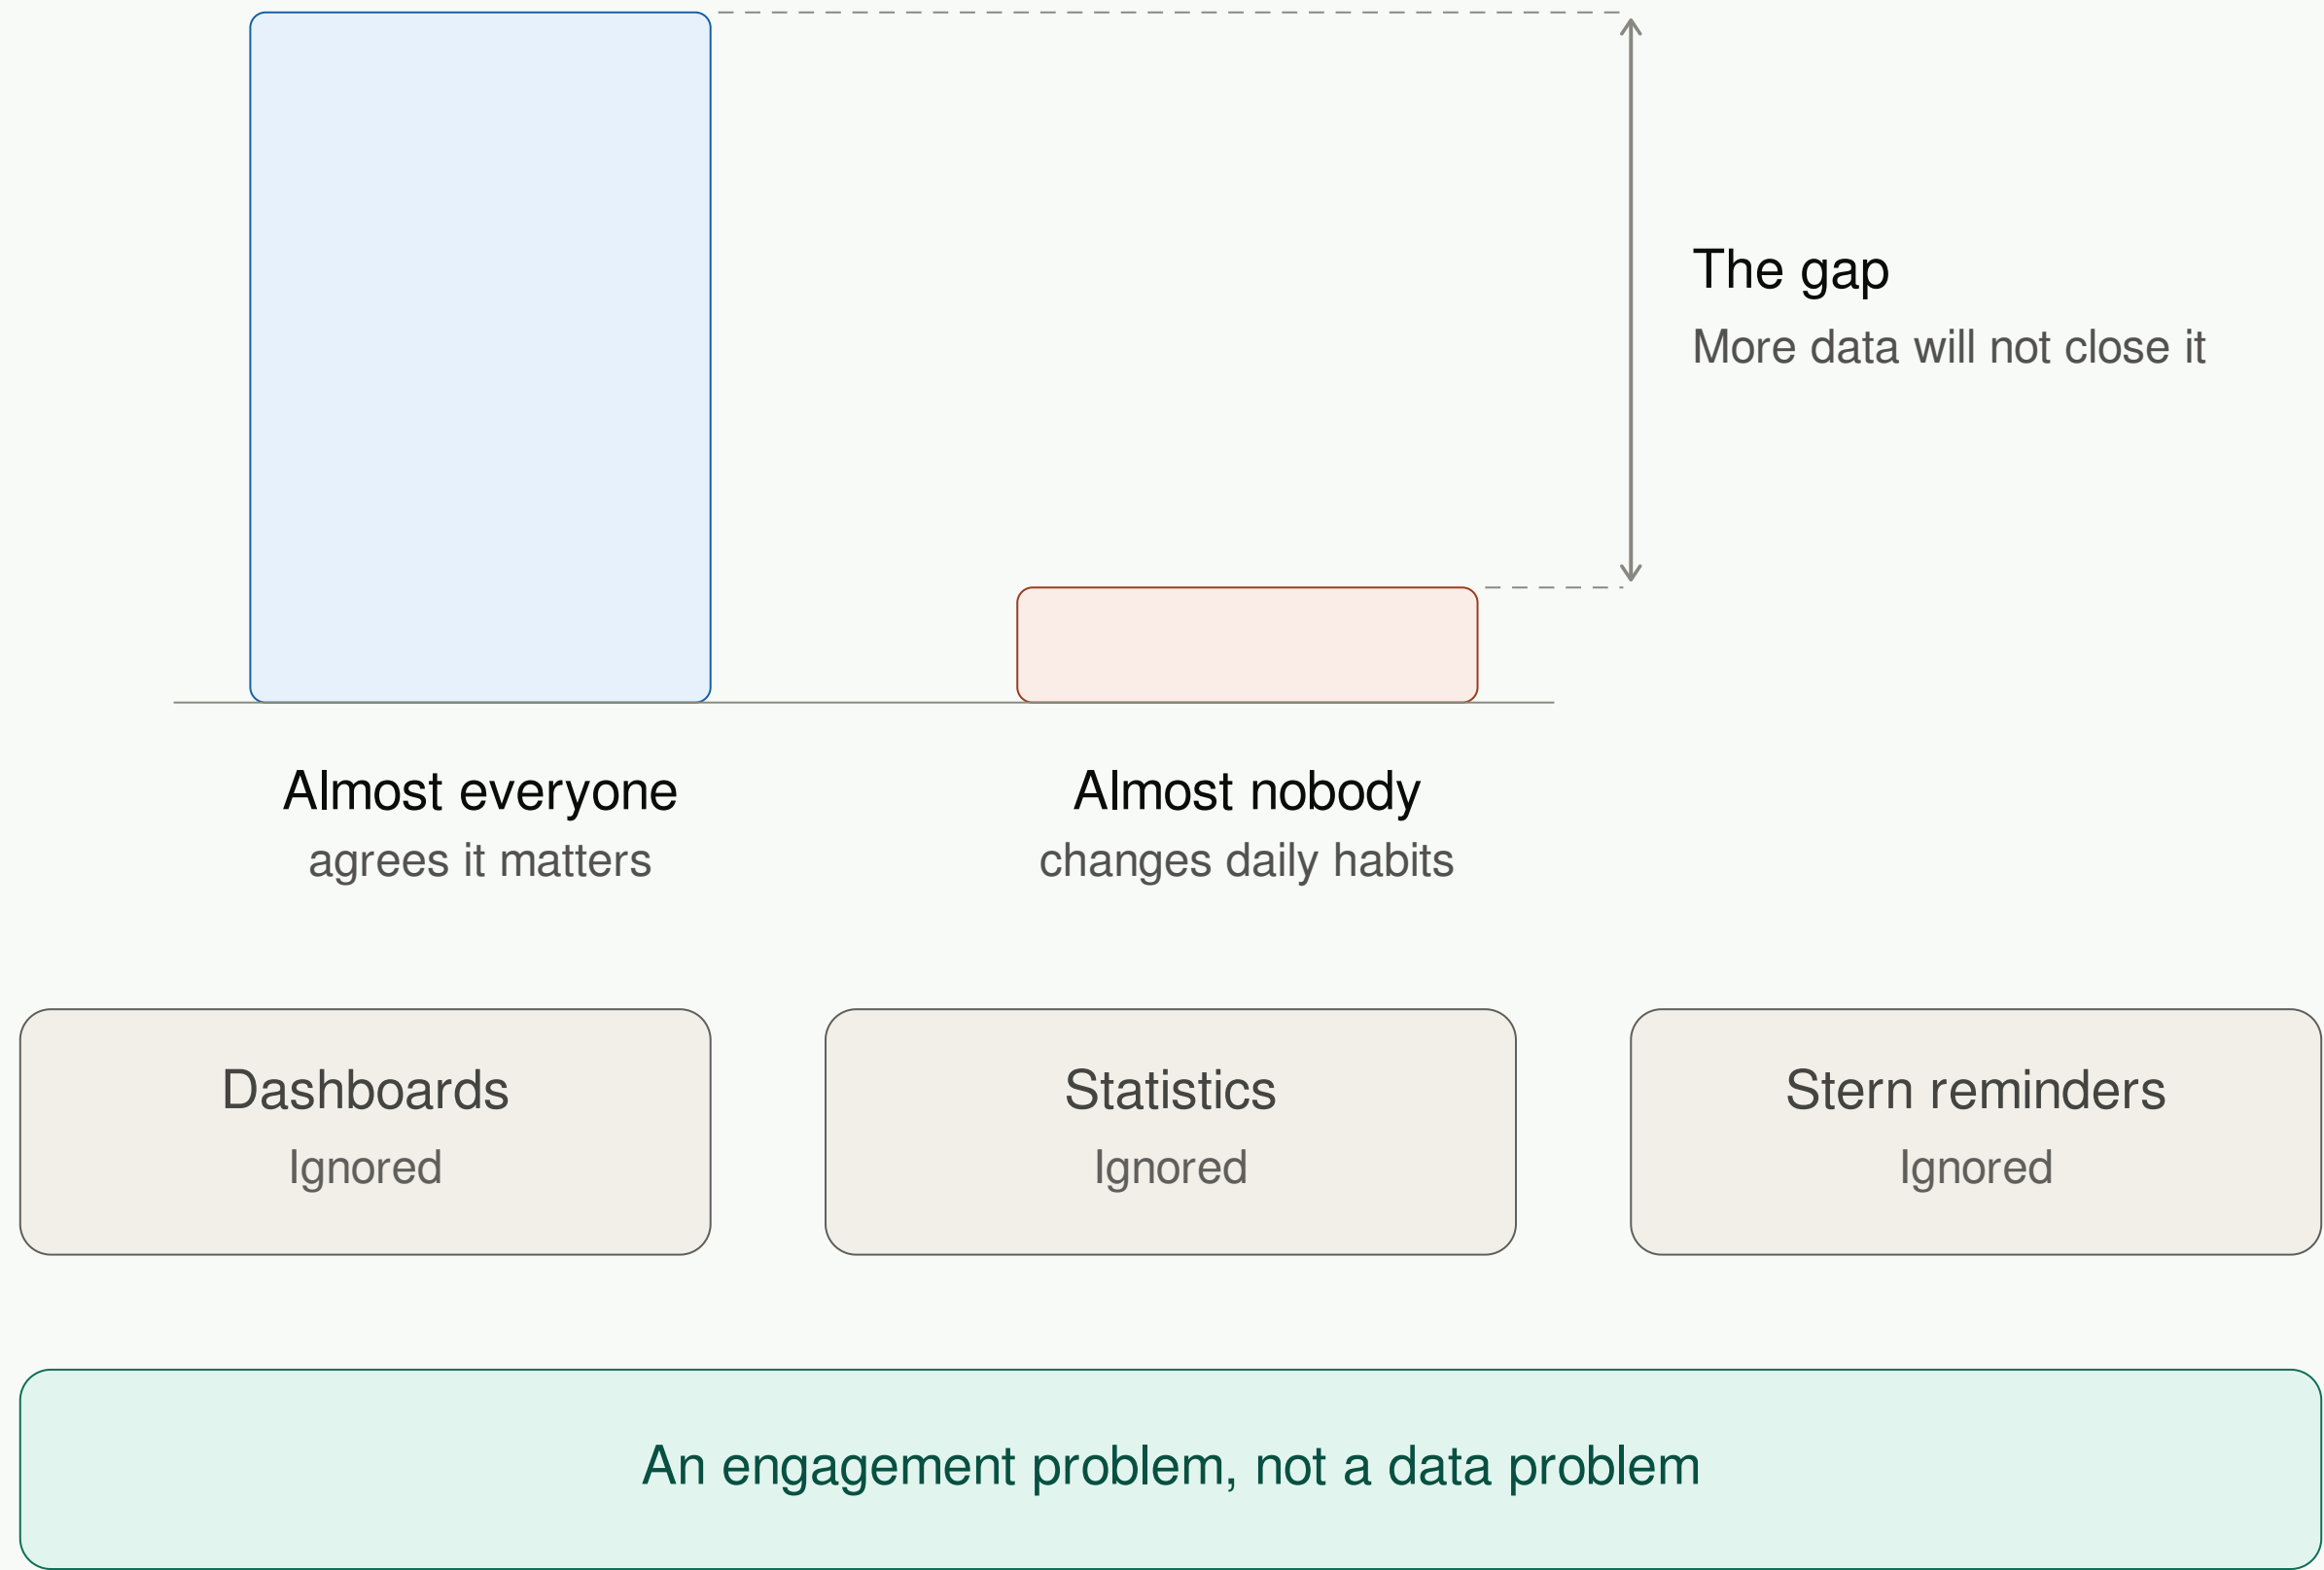

UNSDG Singapore Open Hacks NUS Grand Champion

Asian Energy Business Federation Top 10 Teams

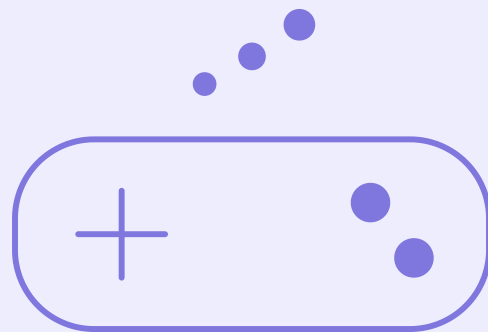

The Problem

The Challenge

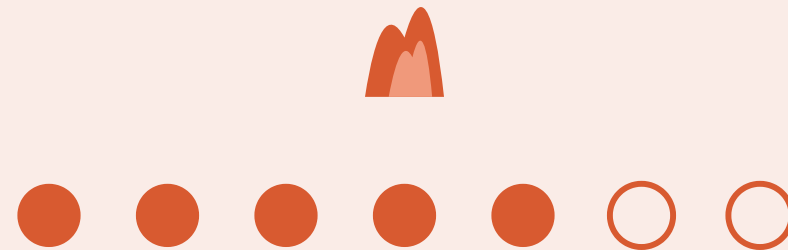

Game

Loops, points, progression

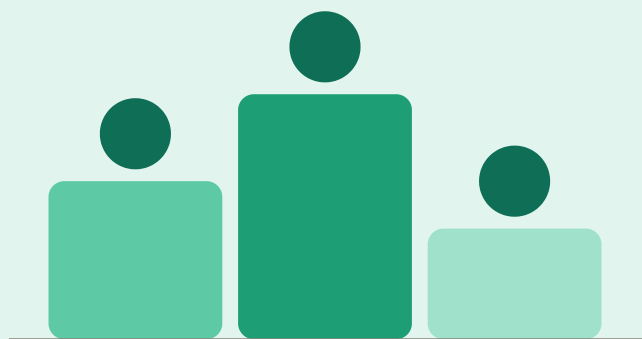

Challenge

Seven days, one habit

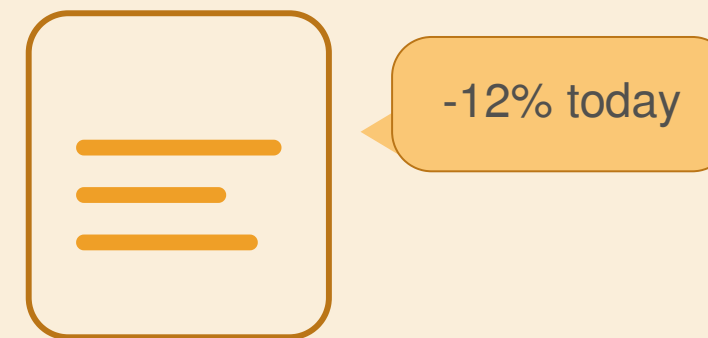

Social competition

Teams, streaks, leaderboards

Nudge

Right prompt, right moment

Pick any resource domain

Energy

Water

Waste

Food

Transport

Buying

Design and build a fun, engaging solution that motivates ordinary people to adopt more resource conscious behaviours!

Expected Deliverables

What you ship

Working prototype

Web, app, game or bot

Demo video

Two to three minutes

The rationale

Audience and behaviour

Example directions, optional

Team streak challenge

Friends, classes or teams compete

Playful rewards, leaderboard

Play the boring habit

Game, chatbot or AR

Entertaining and shareable

Judging Criteria

Fun and engagement

40%

Would you use it on a regular basis? Would you tell your friends about it? Would they use it on a regular basis and tell their friends about it?

Behaviour change

20%

A real behaviour
A believable path to it

Stickiness

20%

Survives the novelty
Streaks, social hooks

Craft and usability

20%

Usable end to end
Polished, clear design

**Good Luck,
Have Fun Building!**
